

## PRESS RELEASE

DATE: 03/09/06

---

---

Process Innovations, Inc. is pleased to announce the sales representative partnership with Spexi Industrial Supplier, of El Paso, TX, for the full line of Process Innovations heating tools and equipment, including the Model 175 Belt Conveyor-Oven , the Model 425 Shuttle Processor, and the Model 105 Tunnel Oven.

Spexi's staff is very knowledgeable on heat shrink tubing application equipment and will be providing sales, equipment support, and spare parts service to the Monterey/North Eastern Mexico region.

Spexi and Process Innovations will also be providing joint application assistance to customers requiring custom equipment to meet specific requirements.

For local inquires or assistance in the El Paso area, please contact:  
Mr. Luis Hernandez, Spexi Sales Manager @ 915.532.3627

We welcome Spexi to our network and look forward to continuing to provide world class heat shrink application equipment to customers.

Robert S. Crow, President and CEO  
Process Innovations, Inc.
