

PRESS RELEASE

DATE: 09/17/09

Process Innovations, Inc. is pleased to announce the sales representative partnership with TSR, Inc. (Training Service & Repair), of Eastport, MI, for the full line of Process Innovations heating tools and equipment, including the Model 175 Belt Conveyor-Oven , the Model 425 Shuttle Processor, and the Model 105 Tunnel Oven.

TSR's staff is very knowledgeable on heat shrink tubing application equipment and will be providing sales, equipment support, and spare parts service.

TSR and Process Innovations will also be providing joint application assistance to customers requiring custom equipment to meet specific requirements.

For inquires or assistance, please contact:
Mr. Tim Paczesny, President @ 231-599-2236

We welcome TSR to our network and look forward to continuing to provide world class heat shrink application equipment to customers.

Robert S. Crow, President and CEO
Process Innovations, Inc.
